

NEWS FOR FARRIERS

New Baldor 1/4hp Buffer (Red)

Baldor is no longer making the 1/4hp buffer motor housing that it has for years. The new housing is the same size as the 1/2hp grinder. The buffer has 1/2" shafts and operates at 1800 rpm also the same as the original. The shafts have been extended by 1" on each end to make it easier to keep knives away from the housing. It is painted red, to avoid confusing it with the 1/2hp grinder.

FPD 20 for 2020 Facebook Giveaway

FPD'S FACEBOOK GIVEAWAY FOR JULY IS ONE 210CC CARTRIDGE EQUI-PAK AND 2 TIPS

Equi-Pak is your "Go To" product for comfort, protection and therapeutic support. For use as pad/packing material. Bonding directly onto the sole and frog, Equi-Pak™ is a liquid urethane that sets in 30 seconds. Can be used with or without a pad. Provides support and protection for thin soled, flat-footed horses, absorbing shock and concussion. Can be filled to ground level for added support in less than 1 minute. No hand mixing and no waste. Will not breakdown, impervious to debris and moisture. Sole and frog left in great condition. Improves depth of sole.

Follow FPD on Facebook @ farrierproductdistribution to see what we're offering in the current month and look for posts like this one to register for a chance to win the monthly free give-away. This give-away is only valid in the U.S. and Canada.

JUST A REMINDER

Kerckhaert Steel Triumph

This is a Rim-type shoe with bevels and solid heel area. Available in excellent front and hind shapes. The steeper bevel in toe provides good breakover and less chance of slipping. Available in Clipped and Unclipped styles.

- Unclipped Front Sizes 00-3
- Unclipped Hind Sizes 00-2
- Quarter Clipped Front Sizes 00-3
- Side Clipped Hind Sizes 00-3

Kerckhaert Steel Triumph Lite Unclipped

Designed specifically with a lighter section of steel for the Quarter Horse and other breeds that don't require heavy steel. Front shape is slightly narrower than the regular Triumph series.

- Unclipped Front Sizes 000-1
- Unclipped Hind Sizes 00-2

Weld-In Inserts from Diamond

POSTED 6/16/20

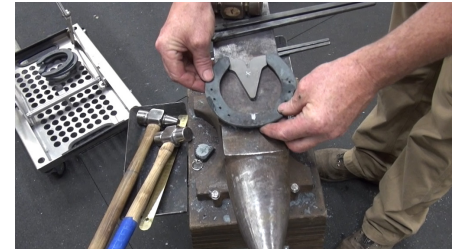

Conrad Trow, CJF came to the FPD FootProShop to demonstrate his techniques for using the Diamond Farrier USA weld-in inserts. Conrad uses inserts in his practice and offers some great tips on how to use them efficiently.

Diamond Egg Bar Insert

POSTED 6/17/20

Conrad welds a Diamond Egg Bar insert into a Kerckhaert Standard Max shoe he has shaped to a hind pattern.

Diamond Heart Bar Insert Demo

POSTED 6/20/20

Conrad continues working through options with the Diamond Heart Bar insert, welded into a Kerckhaert Classic Roller front shoe.

Diamond Onion Heel Insert

POSTED 6/22/20

If you need some protection or extra heel flotation, the Diamond Onion Heel weld-in insert may be just the thing for your application. Conrad demonstrates another weld-in insert process in this video, using the Kerckhaert DF front shoe.

Weld-In Toe and Collateral Inserts

POSTED 6/24/20

Conrad works on the last two styles of inserts with the fabrication of the Diamond Toe and Collateral (branch) inserts. Using a Kerckhaert Standard Max shoe he has modified to a hind pattern, he welds in the insert that can be helpful for suspensory issues. He follows with the collateral (branch) insert welded into a Classic Roller front shoe.

Why All the Weld-In Inserts?

POSTED 6/25/20

In this last video installment, Conrad gives a brief explanation of why he uses the various Diamond weld-in insert options.
